## Restoring and Strengthening Election Integrity

One of the most important steps we can take to restore and strengthen democracy is to ensure that our elections are fair and secure. The Trump presidency has seen a number of attacks on election integrity, including efforts to suppress the vote and to undermine the legitimacy of the results.

The Blueprint for Democracy After Trump includes a number of proposals to restore and strengthen election integrity, including:

- Expanding access to voting by making it easier to register to vote and to cast a ballot.
- Protecting the right to vote by preventing voter suppression tactics, such as gerrymandering and voter ID laws.
- Ensuring the accuracy and security of elections by investing in voting technology and by strengthening cybersecurity measures.
- Reforming the Electoral College to make it more democratic and to prevent a candidate from winning the presidency without winning the popular vote.

## **Defending Democratic Norms**

Democratic norms are the unwritten rules and traditions that govern how our democracy operates. These norms include things like respecting the rule of law, respecting the results of elections, and refraining from personal attacks on political opponents.

The Trump presidency has seen a number of attacks on democratic norms, including attacks on the media, the judiciary, and law enforcement.

The Blueprint for Democracy After Trump includes a number of proposals to defend democratic norms, including:

- Protecting freedom of the press by ensuring that the media is free to report the news without fear of retaliation.
- Ensuring the independence of the judiciary by protecting judges from political pressure.
- Upholding the rule of law by ensuring that everyone, including the president, is subject to the law.
- Promoting civility and respect in political discourse.

### **Strengthening the Rule of Law**

The rule of law is the principle that everyone, including the government, is subject to the law. The Trump presidency has seen a number of attacks on the rule of law, including efforts to obstruct justice, to pardon criminals, and to undermine the independence of law enforcement.

The Blueprint for Democracy After Trump includes a number of proposals to strengthen the rule of law, including:

- Protecting the independence of law enforcement by ensuring that law enforcement agencies are free from political interference.
- Ensuring that everyone, including the president, is subject to the law.
- Reforming the criminal justice system to make it more fair and just.
- Strengthening ethics laws to prevent corruption and to hold public officials accountable.

The Blueprint for Democracy After Trump is a comprehensive plan to restore and strengthen American democracy. It includes a number of proposals to address the challenges that our democracy has faced under the Trump presidency, including attacks on election integrity, democratic norms, and the rule of law.

By implementing these proposals, we can help to ensure that our democracy is able to withstand future challenges and that we can continue to build a more just and equitable society for all Americans.
