Arrival at Auschwitz: A Nightmare Unfolds

Horses arrived at Auschwitz from various sources, including farms, circuses, and the German army. Upon arrival, they faced starvation, overcrowding, and the relentless brutality of the SS guards. Packed into small stalls, they suffered from malnutrition, disease, and the constant fear of beatings or execution.

Life in the Depths of Despair: Labor and Suffering

The horses' lives within Auschwitz were a relentless cycle of labor and suffering. They were forced to toil in heavy labor, hauling supplies, clearing debris, and transporting the dead. Their bodies became emaciated and scarred, bearing witness to the inhuman treatment they endured.

The Bond Amidst Horror: Between Humans and Animals

Despite the horrors of Auschwitz, a remarkable bond emerged between the prisoners and the horses. Many prisoners risked their own lives to care for the animals, providing food, water, and comfort whenever possible. These acts of compassion, however small, served as a glimmer of humanity amidst the darkness.

The Fate of the Horses: A Tragic End

As the war drew to a close, the fate of the horses at Auschwitz became increasingly uncertain. Some were shot during the infamous death marches, while others were left behind to fend for themselves. The few that survived carried physical and emotional scars for the rest of their lives.
